KICKBOXING IN NORWAY

NEWS FROM NORWAY

Dear Clan family!

Today I would like to introduce you to our Clan brother T. Henry Macpherson from Norway.

Henry is 31 years old and has been active and successful in the kickboxing scene for 12 years!

Since I don't really know this sport, I asked him to send us a few lines to explain it.

Henry:

"My sport is kickboxing, and the rules are... boxing and kicking over the belt.

I fight in full contact, which means we can knock out our opponent. However, it is not a completely normal event as it requires a lot of skill and sometimes a bit of "luck".

I became passionate about seeing how far I could push myself and seeing what great opponents I could face.

I love the game and after 12 years I still

find challenges to grow from.

I am now blessed with the opportunity to fight for the world title with McDonald of Ireland on May 11th in Ireland.

I am confident in my abilities and expect to bring home the belt."

All I can do is - as they say in Germany - keep my fingers crossed for him!

I think the whole Clan family wishes him success on May 11th in Ireland!
